Notes to the Condensed Interim Consolidated Financial Statements

(All tabular amounts are in thousands of Canadian dollars, unless otherwise stated)

1. CORPORATE INFORMATION

Big Rock Brewery Inc. ("Big Rock" or the "Corporation") is incorporated in Canada, with limited liability under the legislation of the Province of Alberta, and its shares are listed on the Toronto Stock Exchange and trade under the symbol "BR".

Big Rock is a regional producer of premium, all-natural craft beers and cider, which are sold in six provinces and two territories in Canada. The head office, principal address, and records office of the Corporation are located at 5555 - 76th Avenue SE, Calgary, Alberta T2C 4L8.

2. BASIS OF PREPARATION

Going concern

The condensed interim consolidated financial statements for the three and six months ended June 30, 2023 have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Corporation will be able to realize its assets and discharge its liabilities in the normal course of business. For the six months ended June 30, 2023, the Corporation incurred a net loss of \$0.6 million. The Corporation has \$4.6 million drawn on its operating facility as at June 30, 2023. The credit facility imposes a number of positive and negative covenants on the Corporation more fully described in Note 9.

There remains a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. These financial statements do not include adjustments to the recoverability and classification of recorded asset and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business at amounts different from those in the accompanying condensed interim consolidated financial statements. Such adjustments could be material.

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the presentation of interim financial statements and International Accounting Standards ("IAS") 34, Interim Financial Reporting, as the accounting policies applied in these condensed interim consolidated financial statements are based on IFRS as issued, outstanding and effective June 30, 2023.

These condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on August 11, 2023.

Notes to the Condensed Interim Consolidated Financial Statements

(All tabular amounts are in thousands of Canadian dollars, unless otherwise stated)

Basis of measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value through profit and loss. These condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional and presentation currency of the Corporation and its subsidiaries. All values are rounded to the nearest thousand dollars except where otherwise indicated.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of Big Rock and all of its wholly-owned subsidiaries. Subsidiaries are those enterprises controlled by the Corporation. The following companies have been consolidated within the condensed interim consolidated financial statements:

| Subsidiary | Registered | Holding | Functional Currency |
|--------------------------------------|------------|----------------|---------------------|
| Big Rock Brewery Inc. | Alberta | Parent Company | Canadian dollar |
| Big Rock Brewery Operations Corp. | Alberta | 100% | Canadian dollar |
| Big Rock Brewery Limited Partnership | Alberta | 100% | Canadian dollar |

Inter-company balances and transactions, and any unrealized gains or losses arising from inter-company transactions, are eliminated in preparing the condensed interim consolidated financial statements.

Basis of presentation

These condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business, presented in Canadian dollars. All values are rounded to the nearest thousand dollars except where otherwise indicated.

These condensed interim condensed interim consolidated financial statements have been prepared using the same accounting policies and methods of computation as the annual audited consolidated financial statements of the Corporation for the year ended December 30, 2022. These condensed consolidated interim financial statements do not include all of the information and disclosures required in the Corporation's annual consolidated financial statements and should be read in conjunction with the Corporation's annual audited consolidated financial statements for the year ended December 30, 2022.

Notes to the Condensed Interim Consolidated Financial Statements

(All tabular amounts are in thousands of Canadian dollars, unless otherwise stated)

During the six months ended June 30, 2023, the Corporation sold a variety packer to a supplier who will provide variety packing services moving forward. The equipment was sold for a total of \$0.5 million.

During the six months ended June 30, 2023, the Corporation assessed for indicators of impairment with respect to certain of the Corporation's assets and determined the Corporation's market capitalization compared to net asset value was an indicator of impairment. A test for impairment was performed at the individual asset level by comparing the estimated recoverable amount to the carrying values of the assets. The estimated recoverable amount of the assets was determined to be their fair value less costs of disposal and no impairment was recorded in the consolidated statements of comprehensive loss.

9 DFRT

The Corporation has a credit facility with a financial institution owned by the Government of Alberta. The credit facility includes a revolving operating loan facility (the "Operating facility") of \$6 million and an evergreen term loan facility (the "Term debt") of \$10 million. Advances under both credit facilities may be made by way of Canadian prime rate loans and letters of credit.

As a result of the prior amendment to the Corporation's commitment letter with its lender as at March 31, 2022, for the period from April 1, 2022 to December 30, 2022, both facilities bear interest rates at prime plus a basis point spread that is subject to a pricing grid based upon the Corporation's funded debt to earnings before interest, taxes, and depreciation, less an amount for maintenance capital. Both facilities are also subject to a standby fee on committed amounts undrawn. Term Debt payments of principal and interest are monthly.

On December 5, 2022 Big Rock closed a \$4.3 MM second lien financing with VN Capital Fund I, LP, a company related through a common director, and in connection therewith, has agreed to amended terms under its existing credit agreement with ATB Financial for both of its \$6 MM revolving operating loan facility and its \$10 MM evergreen term loan facility.

Details on amounts outstanding under these facilities are as follows:

| As at | June 30, 2023 | December 30, 2022 |
|--------------------------------------------|------------------|----------------------|
| Operating facility - principal | 4,605 | 1,894 |

| | | |
| Current | 5,705 | 5,705 |
| Long-term | 10,453 | 8,045 |

Term Debt payments of principal and interest are monthly. Details on amounts drawn under the Term Debt are as follows:

| | Expiry date | June 30, 2023 | December 30, 2022 |
|-----------------------------|-------------------|------------------|----------------------|
| Tranche 1 | December 2, 2023 | 4,300 | 4,300 |

On August 12, 2022, Big Rock and ATB signed an Acknowledgement and Reservation of Rights letter where ATB imposed additional conditions on the Corporation that was followed up with a further review prior to the end of August 2022. This letter imposed additional conditions including the weekly reporting of cash flow projections and presentation of a plan on or before August 29, 2022 (the "Plan") that was subsequently presented to ATB. The Plan reviewed the overall business strategy and included a multi-year financial forecast and plans for addressing near-term liquidity challenges and overall capitalization of the business.

Notes to the Condensed Interim Consolidated Financial Statements

(All tabular amounts are in thousands of Canadian dollars, unless otherwise stated)

On November 16, 2022, the Corporation came to a new agreement with ATB that included new covenants that aligned with the strategy of the Corporation. This new agreement waived the fixed charge ratio referred to above for fiscal 2023 and replaced it with new covenants for 2023. The Corporation is subject to a working capital ratio that must exceed 1.0/1.0, increasing to 1.1/1.0 effective June 30, 2023, and increasing to 1.25/1.0 effective September 30, 2023, that is calculated monthly. Finally, the Corporation is subject to a cumulative EBITDA ratio that is tested quarterly. The Corporation is in compliance with all covenants contained in the ATB agreement at this time.

13. CAPITAL RISK MANAGEMENT

The Corporation defines its capital to include common shares plus short-term and long-term debt less cash balances. There are no externally imposed capital requirements on the Corporation. The Corporation's objectives are to safeguard the Corporation's ability to continue as a going concern, to support the Corporation's normal operating requirements and to maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk. This allows management to maximize the profitability of its existing assets and create long-term value and enhance returns for its shareholders.

| As at | June 30, 2023 | December 30, 2022 |
|-----------------------------------------------------------------------------------|------------------|----------------------|
| Cash | 1,064 | 612 |
| Debt | 16,158 | 13,750 |
| Shareholders' equity | | |
| Shareholders' capital | 113,775 | 113,746 |
| Contributed surplus | 3,075 | 2,954 |
| Accumulated deficit | (92,093) | (91,498) |
| Total shareholders' equity | 24,757 | 25,202 |
| Total capitalization (total debt plus shareholders' equity, net of cash balances) | 41,979 | 39,564 |

The Corporation manages the capital structure through prudent levels of borrowing, cash flow forecasting, and working capital management. Adjustments are made by considering changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, Big Rock may issue new shares, issue or renegotiate its debt, acquire or dispose of assets or adjust the amount of cash. Capital requirements of the Corporation are managed by the preparation of an annual expenditure budget which is approved by the Board of Directors and monitored on a regular basis by management. The budget is updated as necessary depending on numerous factors, including capital deployment, results from operations, general industry conditions and government policy changes.

In addition, the Corporation monitors its capital using ratios of (i) net debt (debt plus license obligation less cash) to earnings before interest, taxes, depreciation, and amortization ("EBITDA") and (ii) EBITDA to interest, debt repayments, and dividends. Net debt to EBITDA is calculated by dividing net debt by EBITDA. EBITDA to interest, debt repayments, and dividends is calculated by dividing EBITDA by the combined interest, debt repayments, and dividend amounts.

14. FINANCIAL INSTRUMENTS

Categories of financial instruments

The Corporation's principal financial instruments are its outstanding amounts drawn from its credit facilities, which, after cash flow from operations, are its main source of financing. Financial assets and liabilities arising directly from its operations and Big Rock's activities include accounts receivable, debt, accounts payable and accrued liabilities, and share-based payments liabilities.

Big Rock's financial instruments and their designations are:

| Classification of Financial Instrument | Designated as |
|------------------------------------------|---------------------------------------|
| | |
| Financial assets | |
| Cash | Amortized cost |
| Accounts receivable | Amortized cost |
| Financial liabilities | |
| Accounts payable and accrued liabilities | Amortized cost |
| Debt | Amortized cost |
| Share-based payments | Fair value through profit and loss |

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk that the counterparty to a financial asset will default, resulting in the Corporation incurring a financial loss. Big Rock has a concentration of credit risk because a majority of its accounts receivable are from provincial liquor boards, under provincially regulated industry sale and payment terms. The Corporation is not exposed to significant credit risk on amounts outstanding from provincial liquor boards as payment in full is typically collected at the time of sale and this portion of receivables are with government agencies. While the majority of Big Rock's accounts receivables are from provincial government liquor authorities, the timing of receipts of large balances may vary significantly from period to period.

The Corporation also extends credit terms to certain co-packing partners which carries greater risk of incurring financial loss compared to amounts outstanding from provincial liquor boards.

The credit quality of the Corporation's significant customers is monitored regularly, and allowances are provided for potential losses that have been incurred at the period end date. Receivables that are neither past due, nor impaired are considered collectible. Receivables over 90 days old are considered to be past due. Where concentrations of credit risk exist, management monitors the receivable balances closely to ensure appropriate controls are in place to ensure recovery. At June 30, 2023, 99% (December 30, 2022 - 88%) of accounts receivables were from ten customers, including provincial liquor boards and contract customer receivables with 22% of receivables aged over 90 days compared to 40% at December 30, 2022.

Liquidity risk

Big Rock's primary sources of liquidity are its cash flows from operations and existing or new credit facilities. Liquidity risk is mitigated by maintaining banking facilities, continuously monitoring forecast and actual cash flows and, if necessary, adjusting levels of dividends to shareholders and capital spending to maintain liquidity.

Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Corporation's operations. The table presents a maturity analysis of the Corporations financial liabilities based on the expected cash flow from the reporting date to the contractual maturity date:

| | Carrying Amount | Due within one year | Due in one to five years | Due greater than five years |
|------------------------------------------|--------------------|---------------------------|--------------------------------|-----------------------------------|
| Accounts payable and accrued liabilities | 8,157 | 8,157 | _ | _ |
| Debt | 16,158 | 5,705 | 2,060 | 8,393 |
| Lease liabilities | 3,345 | 716 | 1,555 | 1,074 |
| Total contractual repayments | 27,660 | 14,578 | 3,615 | 9,467 |

Interest rate risk

Big Rock is exposed to interest rate risk on the variable rate of interest incurred on the amounts due under the Operating Facility and Term Debt and on interest earned on bank deposits. The cash flow required to service the interest on these facilities will fluctuate as a result of changes to market rates. For the period ended June 30, 2023, a 1% increase in the prime interest rate would result in additional interest expense of \$0.2 million (2022 - \$0.1 million).

Foreign currency risk

The Corporation currently relies on only a few foreign suppliers providing small amounts of goods and thus has limited exposure to risk due to variations in foreign exchange rates. The Corporation has not entered into any derivative instruments to manage foreign exchange fluctuations; however, management monitors foreign exchange exposure. The Corporation does not have any significant foreign currency denominated monetary liabilities.

Commodity price risk

The Corporation is exposed to commodity price risk in the areas of utilities (primarily electricity and natural gas), malted barley, water, glass and aluminum, where fluctuations in the market price or availability of these items could impact Big Rock's cash flow and production. To minimize the impact of this risk, the Corporation enters into contracts which secure supply and set pricing to manage the exposure to availability and pricing.

Big Rock's profitability depends on the selling price of its products to provincial liquor boards. While these prices are controlled by the Corporation, they are subject to such factors as regional supply and demand, and to a lesser extent inflation and general economic conditions. As beer and other alcoholic beverage sales are the only source of revenue for the Corporation, a 5% increase or decrease in these prices will result in a corresponding increase or decrease in revenue.

Tax risk

Big Rock requires various permits, licenses, and approvals from several government agencies to operate in its market areas. In Alberta, Big Rock's largest market, the AGLC provides the necessary licensing approvals. Other licenses have been obtained from various other government authorities. Management believes that Big Rock is in compliance with all licenses, permits, and approvals.

Each provincial authority has its own tax or "mark-up" structure by which fees are levied on brewers' sales within that jurisdiction. These regulations may be changed from time to time, which may positively or negatively impact Big Rock's profitability. The Corporation has adopted a proactive approach with provincial governments and continues to evaluate its long-term business plan in order to mitigate the risk of future mark-up rate structure fluctuations.

15. SEGMENTED INFORMATION

For management purposes, the Corporation is organized into operating segments based on its products, services, location, and distribution methods. Ten operating segments have been identified. These segments have been aggregated into two reportable segments: the wholesale segment, which manufactures and distributes beer, cider, and other alcoholic beverages to and through provincial liquor boards which are subsequently sold on to end consumers and the retail segment, which sells beverages, food, and merchandise to end consumers on premises owned and/or operated by the Corporation.

The wholesale segment has similar production processes, types of customers and products that are shipped to customers rather than sold on-site. The retail segment has been aggregated to reflect the products and services sold directly to the end consumer through premises owned and operated by Big Rock.

Management monitors the results of its operating segments separately for making decisions about resource allocation and performance assessment. Segment performance is evaluated on a number of measures, the most significant being profit or loss, which is measured consistently with the definition of profit or loss in the consolidated financial statements. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Operating assets and liabilities are managed on a corporate basis. General and administrative expenses, current taxes, deferred taxes, and capital expenditures are not allocated to segments as they are also managed on a corporate basis. Inter-segment revenues are eliminated on consolidation and are reflected in the "eliminations" column. All other adjustments and eliminations are part of detailed reconciliations presented below.
